# Keynote Rankings for Rental Car Web Sites

October 2006

## Keynote's Mission: Improve eBusiness Success

Keynote's mission is to improve eBusiness performance worldwide by providing metrics and insights into customer experience, operational excellence, and competitive strategies on the Web.

The *Keynote Customer Experience Rankings for Rental Car Web Sites* is part of a syndicated competitive intelligence program designed to benchmark and improve the operational and business performance of leading Web businesses.

The rankings are based on large-scale studies that employ Keynote's unique methodology and expertise to provide comparison metrics and insights into best practices. Unlike other research, Keynote's approach uses actual consumer behavior and feedback, in addition to quantitative measures of site reliability and responsiveness, to provide a detailed understanding of the impact that Web sites have on consumer perceptions and behavior.

## Keynote Methodology Overview

### Measuring Customer Experience

Keynote's proprietary approach to customer experience research measures real people as they pursue real tasks on the Web.

By capturing customer feedback and behavior at the point of interaction with a site, and with accurate knowledge of their intent, Keynote is able to provide a complete understanding of their online experience and how it relates to business goals. This realistic and in-depth view of the customer experience links companies with their customers and prospective customers and helps them to truly understand what they think, how they behave—and why.

For the *Keynote Customer Experience Rankings for Rental Car Web Sites*, Keynote monitored over 2,000 rental car customers as they interacted with the following Web sites:

- Alamo
- Avis
- Budget
- Dollar
- Enterprise
- Expedia
- Hertz
- Orbitz
- Thrifty
- Travelocity

The customers were asked to pursue goals and provide their reactions across a number of areas of site experience. Consumers provided their reactions and answered questions while Keynote recorded their behavior and captured their responses using the proprietary Keynote customer experience methodology. More than 250 metrics were measured for each site included in the study.

Keynote then assessed the impact of the user's experience through a range of indices and a driver analysis to better understand which sites delivered the best business outcomes, and what were the key drivers behind this success.

## Keynote Methodology

## Results: Customer Experience

### Best Sites

The overall Keynote Customer Experience Ranking is the highest-level score of customer experience and is based on an aggregate score of site performance across all 250 customer experience metrics measured in the study. The overall ranking shows which sites are most successful in terms of satisfying customers, driving customer acquisition, and supporting the company's brand.

Of all the sites included in the study, Travelocity was the most successful overall, providing the most effective online experience for rental car customers.

### Keynote Customer Experience Ranking

Rank	Rental Car Web Sites
1	Travelocity

## Specific Areas of Success

The best sites are determined by their success in driving business outcomes including customer satisfaction, brand impact and customer conversion (acquisition). The study benchmarks site success in each of these specific areas.

### Brand Impact Index

Rank	Rental Car Web Sites
1	Travelocity

The Travelocity site was also the top rated site in terms of positive brand perceptions. Customers using the sites topping the Brand Impact Index were generally more satisfied, experienced less frustration, and ultimately formed a more favorable impression of the brand as a result of their experience on these sites.

### Conversion Impact Index

Rank	Rental Car Web Sites
1	Travelocity

Travelocity also led the Conversion Impact Index. Customers visiting sites topping the Conversion Impact Index were more likely to state an intention to reserve a car on those sites or return to those sites in the future.

## Success Drivers and Best Practices

Keynote also conducts a sophisticated statistical driver analysis to determine which aspects of site experience had the most impact on site success. This driver analysis not only explains “why” sites perform the way they do, but also demonstrates which areas of improvement the sites should focus on in order to have the biggest impact on their desired business outcomes.

The drivers that had the most impact on areas such as customer acquisition and brand affinity were customer support, price satisfaction and online reservation process satisfaction.

### Top Impact Drivers

Rank	Rental Car Web Sites
1	Customer Support
2	Price Satisfaction
3	Reservation Process Satisfaction

Keynote then competitively benchmarks sites across these drivers—and determines the key factors contributing to success in these areas.

### Reservation Process Satisfaction

Rank	Rental Car Web Sites
1	Budget
2	Enterprise
3	Avis

For instance, the Budget, Enterprise and Avis sites topped the Reservation Process Satisfaction rankings.

## Qualitative Feedback

To better understand why sites perform the way they do on a given driver, Keynote analysts review the best of breed sites in conjunction with the qualitative feedback provided by panelists during the study.

For instance, visitors to the Budget site were particularly happy with the ease and speed of the reservation process, and the clear price and rental details provided during that process.

### Budget

#### Reservation Process Was Quick and Easy

- “The reservation process was easy to make and the reservation does not require a credit card.”
- “The reservation process was *EXTREMELY* easy. They asked for very limited information which made the process quick and painless.”
- “Very few steps involved. Once I selected my options, I just had to enter name and email address and my car was reserved.”

#### Price and Rental Details Provided on All Pages

- “Liked that the site provided the total price, including tax. Keeping relevant info on the left side for easy reference.”

## Keynote Rankings for Rental Car Web Sites

This abstract highlights findings the *Keynote Customer Experience Rankings for Rental Car Web Sites* study. The full studies contain hundreds of metrics and include additional information not only identifying the best and the worst Web sites in certain categories, but also providing specific detail about why the sites ranked where they did. The following measurements provide additional insight:

## Keynote Drivers

Critical insights of the study are derived from understanding why sites rank as they do. Keynote conducted a sophisticated driver analysis to determine which aspects of the site experience had the most impact on site success. The factors that have the greatest relationship to these site effectiveness indices reveal which areas of the site experience should get the most attention in order to improve critical site outcomes.

## Cross-Site Segmentation

Segmentation provides insights about how certain customer profiles interact with and respond to each site in the study. Keynote compares key metrics across the largest and key segments of the industry, such as high income individuals.

## Qualitative Analysis

Using special qualitative analysis tools, the Keynote research team analyzes participant comments to identify and compare common themes across all of the sites in the study. Since our qualitative algorithms are the same across each of the reports, these tools provide a fair and quantitative way to compare customer verbatims across reports.

## Web Norms Comparisons

Participants in the study do not compare their site experiences just among competitors in a particular industry; they also compare their experiences to those presented by other types of sites. Keynote provides site comparisons against larger web norms so that companies not only know how they compare to their own industry averages, but also to web norms across industries. Keynote web norms are derived from hundreds of evaluations run across many major industries.

## Longitudinal Comparisons

Keynote Rankings provide a solid base for longitudinal comparisons and benchmarking. Each iteration of the study uses a similar study design, and the analysis is based upon standard Keynote metrics, resulting in data that can be easily benchmarked and compared over time.

## Keynote Systems

Keynote Systems, The Internet Performance Authority®, is the worldwide leader in e-business performance management services. Over 2,300 corporate IT departments and 13,000 individual subscribers rely on Keynote's growing range of measurement and monitoring, service level and customer experience management services to improve e-business performance by reducing costs, improving customer satisfaction and increasing profitability.
